FACT SHEET

CINAHL

CINAHL is the **C**umulative **I**ndex of **N**ursing & **A**llied **H**ealth **L**iterature. The CINAHL database is the authoritative source of information for the professional literature of nursing, allied health, biomedicine, and healthcare. For nearly forty years the Cumulative Index to Nursing & Allied Health Literature print index has indexed English-language and selected foreign-language journals covering nursing and other specialized health care areas.

The database also includes relevant materials from seventeen allied health disciplines, plus biomedicine, management, behavioral sciences, health sciences librarianship, education, and consumer health. The CINAHL database provides references to books, book chapters, pamphlets, audiovisuals, dissertations, educational software, selected conference proceedings, standards of professional practice, nurse practice acts, critical paths, and research instruments.

The CINAHL database covers the years 1982 to the present, with over 450,000 records.
