

Beyond the expected.

At St. Joseph's Wayne Hospital, we're changing the way we deliver medical care to meet your needs. And we're doing it by bringing top regional specialists and programs right here, close to where you live. Our **Women's Heart Center** is dedicated to diagnosing and treating the leading killer of women in the nation—cardiovascular disease. We've expanded our state-of-the-art **Emergency Department** and **Cardiac Catheterization Lab**. Our newly renovated **Sleep Center** is capable of diagnosing debilitating sleep disorders. Our **Acute Rehabilitation Unit** eliminates the trauma of moving from the hospital setting to rehabilitation after a life-altering medical event such as a stroke. And we're expanding our **ORs**, renovating and updating our **Critical Care Units**, and outfitting them with all the most progressive technology. **Learn more about us at www.StJosephsHealth.org. Discover all the ways we're reinventing ourselves for you.**
