

We honor the people  
who are the heart and  
soul of St. Joseph's:

St. Joseph's Healthcare System salutes the more than 600 employees who are celebrating Employee Service anniversaries—from five years to 68 years. With countless contributions and long-standing commitments to our organization's Mission, Vision, and Values, we proudly applaud these individuals—and the entire St. Joseph's employee family—for their "patients first" approach to superior quality care and health care service excellence. We thank you for providing truly inspired care.
